

Nurses Month 2020: Week 1 - Recognition

[VIDEO TRANSCRIPT – May 11, 2020]

Hi, this is Collette Hendler, RN, MS, MA, CIC, Editor-in-Chief, Lippincott Solutions, Point of Care. This year as we celebrate Nurses Month we're together as one world fighting the COVID-19 pandemic. Nurses find themselves on the front line caring for patients that are stricken by this deadly disease, true heroes on the front line putting themselves at risk to save others. In celebration of Nurses Month, I want to talk a little bit about recognition. It's important that we continue to increase the visibility of the critical work that nurses do. Nurses make up a diverse workforce caring for patients in a variety of settings. We're leaders, advocates, innovators and researchers. Never before has the courage and commitment and compassion of nurses been more apparent, so as we celebrate Nurses Month, I would like to recognize each and every one of you for your commitment to patients and the profession. Thank you so much for everything that you do and happy Nurses Month.
